FAMILY DIDN'T KNOW HIM.

Douglas Belts Shaved Off His Whiskers and Frightened His Wife.

A good story is told on Douglas Belts, the well known sheepman of Pilot Rock. Mr. Belts has always worn a handsome beard on his chin and very few people in Umatilla county ever saw him without this ornament, until recently.

It is said that when he drove up to his front gate and began to put his team in the barn, on the day that he gave up his beard, none of his family knew him, and his wife was on the point of going out with a gun, to see who it was trespassing on the premises. It required considerable oratory on the part of Mr. Belts to convince her that it was really her husband.

He was passed by his closest friends many times, before they discovered that it was Belts, but the strangest part of the experience is that when he went to Missouri, where he had not visited for 28 years, everybody knew him. Without his whiskers, he looked just as he did when left there for Oregon, his long residence and hard work on the Oregon frontier having changed his appearance but little.

Seaweed 57 Feet Long.

Lee Herring at the National saloon, has probably the longest specimen of kelp, a growth of seaweed, ever brought to this city. It measures from the globe to the tip over 57 feet, and resembles a long whip much like that the cowboys of the old plains were wont to use in the old days. It

is certainly one of the finest specimens of its kind ever discovered.—Astoria News.

A COUGH CONUNDRUM

When is a cough more than a cough?

When it's a settled cold. When it hangs on in spite of all you can do. Cough mixtures won't cure it because they are merely for a cough and this is something more.

Scott's Emulsion cures the cough because it cures the something more. It heals and repairs the inflamed tissues where the cold has taken root and prevents its coming back.

COUNCIL MEETING

LICENSE ORDINANCE OF \$10 PER WEEK PASSED.

Work of Grading Main Street Will Be Continued—Bid for Lumber for Sidewalks and Crosswalks Was Rejected—Proposition Made to Furnish Crushed Rock at Rate of \$1.50 Per Cubic Foot.

The Pendleton city council was in session last night less than half an hour, but during that time it passed two ordinances, rejected a bid to furnish the city with cross and sidewalk lumber, and referred half a dozen communications.

Under suspension of the rules an ordinance fixing a license of \$10 a week upon outdoor restaurants and lunch counters was passed. Violations of this ordinance will be punished by a

fine of not less than \$1, nor more than \$100.

An ordinance fixing the grade of a portion of Main street was also passed.

Robert Forster presented the only bid for the furnishing of lumber to the city during the year 1905 for the construction of sidewalks. He agreed to deliver the lumber in the lengths required at the rate of \$15 a thousand. Councilman Ferguson moved that the bid be rejected and the motion was seconded by Renn. The vote was unanimous.

George F. Schorr agrees to furnish the city with crushed rock, provided it will take at least 500 cubic feet at the rate of \$1.50 a cubic foot, and to spread the rock on the streets at a depth of four inches for 75 cents a square yard. The communication was referred to the street committee.

The liquor license of Ed Beathorn was transferred to Alfred Schneller. Liquor licenses were granted to Foster & McIntosh and to Howard & Monteith.

All the councilmen were present last night with the exception of Sewell. Dickson arrived late.

S. H. Forshaw Collecting Exhibits.

S. H. Forshaw, in charge of the exhibits to be collected in Umatilla county for the Lewis and Clark fair, returned last night from Weston, where he found the farmers and business men enthusiastic over the fair. He expects to find many fine specimens of agricultural and horticultural products in that vicinity.

The New York building at the Lewis and Clark centennial will cost \$20,000, and the state will spend an additional sum of \$15,000 for the building. Massachusetts will spend in all about \$30,000, of which sum \$20,000 will be used for the building and \$10,000 for the exhibit.
